

CSI Scorecard 2023

Isle - Upper

A Excellent 80-100

B Good 60-79

C Fair 40-59

D Poor 20-39

E Very Poor 0-19

The overall score for the catchment is based on a year's data collected at all sites in the waterbody. It is calculated from the observations and water quality results obtained during a Westcountry Citizen Science Investigation (CSI) survey. A waterbody must have at least 12 samples taken over the year for it to qualify for a scorecard.

Please note – from 2022 a change to how the PO₄ score is calculated has been implemented.
